

MISNA Members who are Members of Federal Advisory Committee Act (FACA) Committees

Version 4, Updated: 10 July 2018

	Name of FAC	Purpose of FAC	Name of Designee	MISNA Affiliation	Term of Service
1	Hydrographic Services Review Panel	The Panel is composed of a diverse field of experts in hydrographic surveying, vessel pilotage, port administration, tides and currents, coastal zone management, geodesy, recreational boating, marine transportation, and academia. Advice from this panel will assist in addressing NOAA's strategic plan to improve the nation's marine transportation system and NOAA's plans to support commerce with world-class products and services that will help ensure safe, efficient and environmentally sound marine transportation.	Ed Kelly	Executive Director, Maritime Association of the Port of New York/New Jersey	2016-2021 (2 terms)
2	Hydrographic Services Review Panel	The Panel is composed of a diverse field of experts in hydrographic surveying, vessel pilotage, port administration, tides and currents, coastal zone management, geodesy, recreational boating, marine transportation, and academia. Advice from this panel will assist in addressing NOAA's strategic plan to improve the nation's marine transportation system and NOAA's plans to support commerce with world-class products and services that will help ensure safe, efficient and environmentally sound marine transportation.	Captain Ed Page	Executive Director, Marine Exchange of Alaska	2018-2023 (First Term)
3	Olympic Coast National Marine Sanctuary Advisory Council	The Olympic Coast National Marine Sanctuary Advisory Council was established in 1999 to provide advice on the management and protection of the sanctuary. A community-based body, the Advisory Council, through its members, serves as a liaison to the community regarding sanctuary issues and represents community interests, concerns, and management needs to the sanctuary. The council is comprised of representatives of Indian tribes, state and local governments, other federal agencies, maritime industry, fishing, education, tourism, conservation organizations and the community at large.	Captain John Veentjer	Executive Director, Marine Exchange of Puget Sound	2010 to present (Last term ending 2021)
4	North Atlantic Right Whale (NARW) Southeast Implementation Team	Southeast U.S. Implementation Team (SEIT) was established to assist NOAA Fisheries SERO on issues related to the status and conservation of right whales. The objectives of the SEIT are: Coordinate and effect recovery plan implementation in Southeast U.S. while making efficient use of available resources via recommendations to NOAA Fisheries Service SERO. Monitor effectiveness of recovery plan implementation and adapt accordingly. Identify and prioritize information needs that can be best addressed through enhanced partnerships. The SEIT represents a multi-disciplinary team consisting of various Federal, State and local agencies as well as Pilot, Port Authority and Marine Exchange organizations.	Captain Mike Getchell	Executive Director, Jacksonville Marine Transportation Exchange	2012-2018 (2 Terms)
